Let Us Entertain You

- A powerful 10-inch driver with a 1.5-inch four-layer voice coil
- A BASH® amplifier for high efficiency, with low heat buildup
- A slotted port cabinet to reduce distortion and increase efficiency
- Front-mounted volume control for easy adjustment

SUB 300
Powerful bass kicks movie music and effects into overdrive. And that takes a mighty, yet accurate, subwoofer. The SUB 300 brings low-frequency notes front and center, for resounding bass you can hear—and feel.

The SUB 300 is equipped with a powerful 10-inch long-throw woofer unit housed in the unique slotted port cabinet and a BASH® amplifier capable of delivering 300 watts of peak power. The powerful amplifier, increased cabinet size and ported design, make this subwoofer capable of delivering both a higher sound pressure level (SPL) and a flat frequency response, down to 28 Hz. All delivered, of course, with maximum musical fidelity and a flat frequency response. The level control is placed on the front of the subwoofer, elegantly integrated in the design, with a soft blue light indicating the volume setting.

The compact SUB 300 adds strong, clear bass to any 2-channel or home theater system. Deep bass in an elegant package.

Specifications

System Type	Slotted port
Woofer (mm/in)	254 / 10
Rated output (W)	300
Frequency Range (Hz)	28 - 150
Impedance (Ohm)	22k
Weight (kg/lb)	18.9 / 41.7
Product dimensions (mm/in, HxWxD)	378 x 310 x 507 / 14.9 x 12.2 x 20.0
Finishes	Black or Dark Apple
